

SANCTUARY®

About us...

Located in central Michigan, the Sanctuary ranch is legendary within the hunting industry. Founded in 1978, Sanctuary has become the mecca of whitetail deer enthusiasts. Our incredible harvest records are the result of over 30 years of intensive management of a native Michigan deer herd.

You will be hunting approximately four square miles of upland hardwood forest, interspersed with thick slash, creek bottoms, cedar swamp, open fields and food plots. These diverse ecosystems offer the sportsman numerous options for their daily hunt.

The Sanctuary ranch is about an hour north of Grand Rapids, MI. Gerald R. Ford International Airport (GRR) is generally the easiest and most convenient airport, as it's just a short drive to the Sanctuary lodge. There is also a local airport that can accommodate small to medium sized corporate jets and private planes.

All hunters are accommodated in our world-class lodge, where spacious rustic elegance is combined with all the comforts you would expect in a first-class facility. For those of you wanting even more, a private luxury bungalow can be arranged at an additional charge.

All hunt fees include one guide, accommodations, meals, and all beverages. Just bring your gear and a camera! We also have a fishing pond and a target range for your enjoyment. Non-hunting guests at Sanctuary are always welcome and have almost as much fun as the hunters. Arrangements for guests can be provided at the rate of \$150 per day.
