

SILVER MEDAL

These hunts are for mature, big-bodied trophy bucks scoring up to 145 SCI. Yet, because they lack the genetic potential we strive for in our management program, they are offered at extremely attractive prices. Over the past three years, 90% of these trophies qualified for the SCI Record Book and are impressive animals indeed. For most of our guests, this will be the largest whitetail they've ever taken and would give them bragging rights at almost any deer camp in the nation.

Hunts are scheduled over four days giving clients the opportunity to observe many different types of bucks. Wide, high, heavy – you name it. If you're looking for a great deer at a great price, we consider this an extremely attractive option.

We offer this hunt on a 1x1 guided basis with prices ranging from \$3,800 - \$4,200, based upon available dates. As with our Gold Medal hunts, you will be given the same great accommodations, meals, and service - with the added thrill of seeing some of the largest whitetails on earth.
